

# Bubble Snakes

This is a great activity for outside or if the sunshine is gone then it's an easy one for the kitchen or even at bathtime.

## You will need the following:

- Empty plastic bottle
- Sock
- Elastic band/ hair band
- Washing up liquid
- Water
- Bowl

Cut the bottom end of the bottle off.

Replace the bottom with a sock.

Use band to hold the sock in place.

Fill a bowl with soapy water.

Dip the sock end of the bottle in the bowl of soapy water and blow at the top.

Enjoy making snakes of bubbles.
